## BULL MOOSE PARTY HAS SPLIT IN TWO

**Progressives Will Probably File Petition Saturday—Behse to Head Ticket.**

Confirming this evening's issue that four tickets would appear in the political arena in the primaries to be held Sept. 23, it was announced from good authority late Friday evening that the progressives, better known as bull moose, will have a ticket in the field for the city campaign this fall. At the meeting of the mooseers held Tuesday evening it was decided that the party should unite with the republicans for a fusion ticket but it is claimed that the meeting was ruled by a majority of citizen-mooseers and that those loyal to the party were in number small at the meeting so they made no objection but sat quite and waited for another day. Many were surprised at the many Behse men appointed on the committee but it is probable that they will withdraw at the last moment.

The line-up for the locals as given Friday night will be: Charles Behse, for mayor; Edward Zwieg, for city clerk; William Kimble, for city treasurer; Edgar Finney and Alphonse Heyde, for councilmen at large; Malin Avery, for councilman first ward; A. Roper, second ward; Joseph Russell, third ward; John Walker, fourth ward, and Irvin Kleser, fifth ward.

The bull moose locals were very active Friday evening about the city stating their ticket and it was announced that everything was in readiness for their campaigning. It is probable that they will give the other parties a merry chase.

At 11:30 Friday evening Sammy Meyers, lucky contestant of the Home-ly Man's contest, had 123 signers on a petition asking that his name be placed on the independent ticket as a candidate for mayor subject to the primaries Sept. 23.

Considerable activity is being displayed about the city and it is very evident that four parties will be represented at the primaries. ## ELKHART NEWS

PHONE 295. ROOM 4, L. O. O. F. BLDG.

## ALL READY FOR THE ELKHART PRIMARIES

With the announcement of the democratic city convention date as Tuesday, Sept. 23, and with the bull mooseers' decision Friday night to nominate their city ticket on Sept. 30, Elkhart's political horizon will undoubtedly be "most gloriously illuminated" from now until the November election.

The republicans have opened up club rooms to "educate the masses" and it looks as if the city is going to see one of the prettiest little political scraps in a number of years.

Mayor Ellis M. Chester has said that he will accept the democratic nomination for mayor if it is tendered him, but has asserted that it is a case of "office seeking the man rather than man seeking the office."

Frank E. Smith, a well known Lake Shore engineer, is said to have told friends that he would head the progressives' ticket if they wanted him. D. Rejosek of Elkhart, vice president, F. G. Fried of Elkhart; secretary, W. P. Peddyard of Chicago; treasurer, Benjamin W. Carr of Warsaw.

## MUCH PROGRESS MADE ON TARIFF

WASHINGTON, Sept. 12.—Democratic conferees of the senate and the house made rapid progress Friday on the tariff bill approving the earthenware and glass schedules, with slight changes, the sugar schedule with its free sugar provision and the date for the new rates extended to Mar. 1, 1914, the tobacco schedule, the wood schedule and all of the agricultural schedule with exception of the crocheted banana tax and the countervailing duty on wheat.

In the metal schedule the conferees struck the first snag and after several hours discussion the entire matter was passed over to be taken up later. Majority Leader Underwood and other house conferees were insistent that the senate action placing ferro manganese, pig iron, steel ingots, slabs and blooms on the free list should be deferred. They contend that too much revenue is sacrificed and there is a growing opinion that the senate conferees eventually will agree to a small revenue duty on these articles.

Contrary to the general expectation, little difficulty was encountered in the agricultural schedule, the house conferees agreeing quickly to free cattle. However, the dispute on the countervailing duty on wheat is yet to be settled as to the banana tax. It is generally known that the president thinks it should be stricken out. This would mean a loss in revenue of approximately two and a half million dollars.

In all of the schedules some slight changes were made. The senate conferees from amendments where decreases in rates were made. This policy, it is said, will be maintained throughout the conference. Mr. Underwood insisting that too much revenue has been cut out of the bill.

In the liquor schedule the general rates were approved but action on the approval to put the full internal revenue tax on brands in fortifying sweet wines was deferred. In the earthenware schedule the senate recommended some of its amendments increasing the rates on higher grades of mica.

## SAYS WIFE'S FATHER KILLED LOVE FOR HIM

For alleged alienation of his wife's affections Olive R. Beatty asks \$5,000 in a suit filed Friday in circuit court against S. Wesley Hill and his two daughters, Cora Hill and Anna Gish. He alleges that Hill and his daughters represented to Mrs. Beatty that she was wasting her musical talent by keeping house for her husband.

He asserts that during his wife's absence he was compelled to employ a housekeeper. The complaint states that the couple was married June 16, 1906. Hill is assessor of Portage township.

## SPANISH WOMAN IS NOT VICTIM

**Woman Who Was Supposed to Have Been Killed and Thrown Into River Turns Up at Havana.**

HAVANA, Sept. 12.—Another solution of the great Hudson river murder mystery was knocked in the head here today, when Mrs. Gaspar Janin, a beautiful Spanish woman, who had been identified by her husband in New York as the victim, appeared here in flesh and blood. This left the mystery as inscrutable as ever.

The Havana police, upon a request from the New York central office, started out to find Venecia Planells, who was known to have been infatuated with Mrs. Janin in New York and who came to Havana a few days ago.

Planells was found in a house in the tunderloin and with him was a tall buxom blonde woman, who admitted that she came to New York with the woman told the police that she had been living with Planells for a year and a half and that her husband knew of the liaison and sanctioned it. Janin was told Planells to pay for the cost of a divorce.

"I refused to advance money for such a purpose," said Planells. "This caused a dispute and I believe that the woman named Planells was murdered in order to get even with me for refusing to give him divorce money."

Shows Scar on Shoulder.  
Mrs. Janin exhibited a scar on her shoulder similar to that by which her husband had identified the headless female torso in New York. She denied that it was a birthmark, saying it was the scar of a wound received in an automobile smashup. Planells declared that he would return to New York and sue Janin. His departure, however, may be forced, as the Cuban immigration authorities may decide that his coming here accompanied by a woman not his wife, constitutes a breach of the laws.

Planells explained that he gave Mrs. Janin money with which to come to Havana and followed her on another boat. Planells is a Cuban, his companion is Spanish, having been married to Janin in Barcelona, Spain, when she was 15 years old. Mr. and Mrs. Janin emigrated to New York seven years ago. Janin is a waiter. The wife met and fell in love with Planells in the spring of 1912 and abandoned her husband and young daughter.

## PLYMOUTH SHOW UP TO STANDARD

**Henry L. Swaim of This City, Who Judged Products, Says That the Peaches and Watermelons Were Near Perfect.**

Henry L. Swaim, weather observer for St. Joseph county, judged the fruit and vegetable exhibit at Plymouth Friday and found some of the fruit to be as good in quality as he has ever seen.

Although the display was small the quality in nearly every case was excellent, according to Swaim. He stated that the peaches were nearly 100 per cent, while the melons were of a superior quality, being both large and of an excellent flavor. Jellies and canned goods of which he was the judge, were of a rare quality.

The grains were also good according to Mr. Swaim, the wheat being unusually large. The corn display was not as good as only a small quantity was exhibited. A large number of eggs are also being shown, while baked goods, pickles and squashes make up a big feature in the show. The cabbage exhibit is not as large and according to Swaim the dry weather will probably make the crop turn out extraordinarily low.

Local auto drivers gave a parade at the exposition Friday there being a large number of cars to take part. Saturday the industries of Plymouth will give a parade. Floats with elaborate decorations have been constructed. Saturday will be the last day for the exhibit.

## GOT INFORMATION FROM THE LETTERS

**Attorney's Plea to be Readmitted to Practice in Federal Courts May Start Investigation at Leavenworth.**

CHICAGO, Sept. 12.—Investigation by the department of justice of the mailing departments of federal prisons will be asked by Charles P. DeWoody, superintendent of the department in Chicago, as a result of disclosures made before Federal Judge Landis by L. C. Silver and Hyman Epstein, prisoners in Fort Leavenworth penitentiary in 1912.

The two men were sent to prison by Judge Landis for perjury and subornation of perjury in a bankruptcy case. Thursday Epstein appeared before Judge Landis and asked to be readmitted to practice in the federal courts, basing his request on a statement that Silver's testimony which had resulted in the lawyer's conviction had been perjured.

Questioning of Epstein revealed that he had obtained his information from letters which Silver had written to his wife from the penitentiary. Epstein said he was in the mailing department of the prison and it was an easy matter for any employee to read any letter written by a prisoner.
